

Quantitative tissue morphogenesis - models, manipulations and mechanisms

28 September – 01 October 2026 | Alibaug, India

ORGANIZERS AND CO-ORGANIZERS

Sundar Ram Naganathan
Tata Institute of Fundamental Research, IN

Mahendra Sonawane
Tata Institute of Fundamental Research, IN

Yanlan Mao
University College London, UK

Carl-Philipp Heisenberg
Institute of Science and Technology, AT

Maithreyi Narasimha
Tata Institute of Fundamental Research, IN

Registration
30 April 2026

SPEAKERS

Adrien Hallou
The Kennedy Institute of Rheumatology, GB

Raj Ladher
National Centre for Biological Sciences, IN

Shigeo Hayashi
Riken Center for Biosystems Dynamics Research, JP

Anna Kicheva
Institute of Science and Technology, AT

Richa Rikhy
Indian Institute for Science Education and Research, IN

Stephan Grill
Max Planck Institute for Molecular Cell Biology and Genetics, DE

Chii Jou Chan
Mechanobiology Institute, SG

Rita Mateus
Max Planck Institute for Molecular Cell Biology and Genetics, DE

Tamal Das
Tata Institute of Fundamental Research Hyderabad, IN

Diana Pinheiro
Research Institute of Molecular Pathology, AT

Robert Prevedel
European Molecular Biology Laboratory, DE

Vijaykumar Krishnamurthy
International Center for Theoretical Sciences, IN

Emma Rawlins
University of Cambridge, GB

Roberto Mayor
University College London, GB

Yoshihiro Morishita
Riken Center for Biosystems Dynamics Research, JP

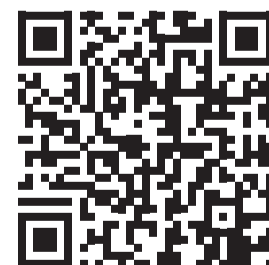

Katharina Sonnen
Hubrecht Institute, NL

Sara Wickström
Max Planck Institute for Molecular Biomedicine, DE

Martin Weigert
Technical University Dresden, DE

Sebastian Streichan
University of California Santa Barbara, US
